

INTRODUCTION

When it comes to your school, HP understands your ICT needs. We know that lowering the cost of ownership is a challenge and that services play a large part in this. HP has had invaluable direct input and consultation from the Ministry of Education and is proud to offer NZ Schools the opportunity to participate in the HP Desktops for Schools Programme.

This programme, in conjunction with our Education Partners as well as Equico Finance offers a variety of desktop solutions and value added services to help address your needs and help manage the cost of ownership through a 3 year leased desktop programme.

Offering both performance and value in an affordable solution HP provides what you need and enables you to push the limits without breaking your ICT budget.

BENEFITS OF LEASING AND INSURANCE

Leasing through Equico allows you to manage the life cycle of your computer related equipment and to accurately forecast your ICT budget, while eliminating any nasty surprises.

Leasing combines flexibility and dependability, with the peace of mind of knowing you are utilising the latest technology and enjoying the best support.

Our experience shows that schools often do not claim for stolen desktops as their insurance excess is too high. Not to mention any accidental damage caused through dropping the equipment or spilling liquids.

With Asset Protection cover, your desktops will be covered for accidental damage and theft for the full 3 year lease term. This ensures your school can relax and enjoy complete peace of mind, with no cost⁴ in the event of any claim.

For more information on leasing or asset protection for your desktops please contact Equico on ph: **0800 378 426** or visit: **www.equico.co.nz**

⁴ For hardware replacement only. Any additional engineering costs including software installation and network configuration will be the responsibility of the school.

3 YEAR NATIONWIDE ONSITE WARRANTY

What better way to have peace of mind than to know that for the 3 years you have your desktop that it is covered by a 3 year onsite warranty. This means that if your hardware problem can not be resolved over the phone, then an engineer will come to your school – anywhere in New Zealand – and diagnose and repair the fault.

HP PLANET PARTNER RECYCLING PROGRAMME

Through the HP Planet Partner Recycling Programme HP will arrange to take away and recycle any end-of-life personal computers, printers, scanners, fax machines, monitors, handheld devices and associated external components, regardless of brand or working state.

ENERGY EFFICIENCY

Performance plus power efficiency equals a winning combination. The HP Desktops for Schools models offer the high-end capabilities you need for uncompromising results and the energy efficiencies you want to help reduce costs and reduce the impact on the environment.

FOR MORE INFORMATION

To ensure your choice of standard, advanced or compact models of HP desktops meet the needs of your school through the full 3 year leased period of time, free pre-purchase expert advice is available from our Education partners. They can also provide a variety of value added services to help address your school's needs and to help manage the total cost of ownership.

For more information on the HP Desktops for Schools Programme or how our Education Partners can help you please visit www.hp.co.nz/desktopsforschools or email nzeducation@hp.com
