

# PROTECTED.

## FORTIGATE THREAT MANAGEMENT GATEWAY.

New Era IT has sourced a high end firewall that will ensure your school is not allowing any Peer to Peer (P2P) traffic out of your network. As well as blocking Peer to Peer traffic, the Fortigate 80c is powerful enough to provide web and spam filtering!!

Purpose-built for security, performance and reliability - with ICSALabs certified inspection engines.

The FortiGate 80C includes a 1 year subscription to Fortinet's FortiProtect Network, which provides continuous updates that ensure protection against the latest viruses, worms, Trojans, and other threats — around the clock, and around the world.

\$144.33\* (per quarter leased, RTR 36 month term)

#### TECHNICAL DETAILS:

- Integrated, all-in-one security delivers enterprise-class multi-threat protection for schools.
- ExpressCard slot supports broadband wireless such as EV-DO, W-CDMA, HSPA, and GPRS, which provides mobile network connectivity for remote deployments, or as a backup solution.
- Dual WAN links for redundant ISP connections deliver higher availability with load balancing and failover, and bring scalability and reliability to telecommuters and school or home office applications.
- DMZ link allows isolation of critical outward facing functions such as email for increased security.
- Six internal security zone or switch ports eliminate need for additional networking device, reducing equipment investment and management burden.
- High-availability support brings scalability and reliability to your school environment.
